

are going to go camping if it is ten above and snow all over the place. You are not going to be very crowded. You are going to find that there is not that many people there. You are not going to find anybody there to check whether or not you have got a permit. It seems to me that raising the permit fee is an issue that probably we should do. But I think there is a lot of people that even question that. But then to turn around and say to these same people that you have to have a permit no matter when you go in there, I don't care if it is in the middle of the winter and you are the only one that drives in there and there is nobody else around, technically that is illegal even though there is nobody there to enforce the law. I think that is ridiculous. It seems to me that we should allow the Commission the opportunity as existing law does to designate dates for when the permit shall be required and not put in statute that you have to have that permit the year around. I guess I would point out one more time, what good does it do to put in the statutes something as illegal if there is nobody there to enforce the law anyhow?

SPEAKER NICHOL PRESIDING

SPEAKER NICHOL: Senator VonMinden.

SENATOR VON MINDEN: Mr. Speaker and members of the Legislature, a question of Bernice Labedz, please, Senator Labedz.

SPEAKER NICHOL: Senator Labedz, would you respond, please.

SENATOR LABEDZ: Yes.

SENATOR VON MINDEN: Senator Labedz, this bill is that you send into the state and get a permit before you even enter the park?

SENATOR LABEDZ: Right. Correct.

SENATOR VON MINDEN: Yesterday when I was trying to amend my \$10 studded tire fee, I believe that you and Senator Higgins both said that the cost of that would be much more than the fee we would get in. I just wonder if you would give me an explanation now on what your feelings are on this \$10.

SENATOR LABEDZ: Well, Senator VonMinden, we are talking about two different things. On the studded snow tire fee it was a matter of safety and those people that wanted to use it, and on the park system we are talking about recreation. It is entirely two different things.

SENATOR VON MINDEN: Senator Labedz...Senator, I am just
